
SETechTra project
2nd Multiplier Event
“RES Technology Training Modules for STEM Undergraduates”

Wednesday, 2 November 2022, 15:00 p.m. – 18:00 p.m.

INVITATION

CRES, in co-operation with NTUA, invites you to the 2nd Multiplier Event of SETechTra project with the title “**RES Technology Training Modules for STEM Undergraduates**”.

The event is organised in the framework of the SETechTra Erasmus+ EU project, which aims to develop a module for STEM Undergraduates that will support production of more industry ready graduates for employment in the Solar and RES sectors, which will in turn positively impact the actualisation of NetZero targets.

The event is addressed to undergraduate and postgraduate students, members of the academic community as well as young people interested in energy and environmental issues.

The event is free of charge either online or at the event location.

The event will take place in the National Technical University of Athens (NTUA) Central Library (9, Iroon Polytechniou str, Zografou Campus, 15772 Zografou) on

Wednesday the 2nd of November 2022, 15:00 p.m. – 18:00 p.m.

For participation either physically or virtually please **register** using the follow link:
